

*Chip Osborne
President / Head of Training
Osborne Organics, LLC*

About Chip Osborne

Chip Osborne is one of the country's leading experts on growing sustainable, natural turf.

Chip is the president of Osborne Organics, LLC, a company he founded to support and educate the land care industry and public sector in alternative approaches to turf management. Chip's natural strategies blend science with hands on experience to create safe, sustainable, and healthy athletic fields and landscapes that do not involve the use of synthetic pesticides and chemical based fertilizers.

As a national consultant, Chip works with state agencies, municipalities, universities and nonprofit organizations in the areas of organic turf management and pesticide elimination.

Industry Experience

- Lecturer for the Northeast Organic Farming Association
- Board Member of Beyond Pesticides
- Chairman of the Marblehead, Massachusetts' Recreation and Parks Department
- Co-founded The Living Lawn Project in Marblehead, MA
- National Seminars Providing Education to the Landscape and Lawn Care Industry
- Professional horticulturalist with over 40 years experience in the green industry
